Consolidated City	
Place within Subject Entity	
Incorporated Place / CDP ¹	
Place outside of Subject Entity	
Incorporated Place / CDP ¹	
Corporate Offset Boundary	
Census Tract	
BLOCK ²	

ABBREVIATION REFERENCE: AIR = American Indian Reservation;
 Trust Land = Off-Reservation Trust Land; Home Land = Home Land;
 OTSA = Oklahoma Tribal Statistical Area; TDSA = Tribal Designated Statistical Area; ANVSA = American Navajo Statistical Area;
 SDA/ISA = State Designated American Indian Statistical Area;
 ANRC = American Navajo Reservation Community;
 CDP = Census Designated Place;
 Minor Civil Div. (MCD) = Minor Civil Division; CCD = Census County Division

FEATURES		
Highway	Highway/Power Line	Stream/Shoreline
Secondary Road	Ridge/Physical Feature	Intermittent Stream
Imp. Strip/Rightway/Entry	Property/Entire Line	River / Lake
Railroad	Nonvisible Boundary	Clearer

Inset

Out Area

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these features.

1. A following a place name indicates that the place is coextensive with a MCD. A " " indicates that the place also is a false MCD; the false MCD name is not shown.

2. A " " following a block number indicates that the block number is repeated elsewhere in the block.

The diagram illustrates the relationship between various data stream types and their boundaries. At the top, a horizontal line is divided into segments by vertical bars. Below this line, several labels are placed: 'Highway' (above a segment), 'Pipe/Power Line' (above a segment), 'Stream/Shooting' (above a segment), 'Secondary Road' (above a segment), 'Ridge/Physical Feature' (above a segment), 'Intermittent Stream' (above a segment), 'Jep/Trip/Wake/Entry' (above a segment), 'Property/Enclosure Line' (above a segment), 'River / Lake' (above a segment), and 'Railroad' (below a segment). To the right of the diagram, there are three labels: 'Glacier' (above a wavy line), 'Inset' (above a rectangular box), and 'Out Area' (above a rectangular box). The diagram uses different colors and patterns to distinguish between these types of boundaries and features.

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- ¹ A " " following a place name indicates that the place is coextensive with a MCD; A " " indicates that the place is also a false MCD; the false MCD name is not shown.
- ² A " " following a block number indicates that the block number is repeated elsewhere in the block.
